

Welcome to Xooma's Xi System

The most important elements to growing a team and generating more monthly income in Xooma are PEOPLE and PROMOTION (communication). The more people you can communicate with, the more opportunities you have for sharing the benefits of Xooma's products and Prosperity Plan. And in today's world, **social media** provides one of the fastest and most effective opportunities to connect with more people.

Xooma's Xi System is designed to help you leverage the power and reach of social media through the largest platform in the world, Facebook. All you need is a computer, Internet access and a Facebook account to take advantage of everything this online system can do for you.

Naturally, the Xi System Tools will require a small investment of your time to set up and learn the basics. The good news is that getting started is surprisingly simple. Once you set them up, these tools will give you many automated ways to easily connect with more and more people through social media on Facebook. These tools also allow you to leverage technology for a more effective and timelier follow-up to maximize your business building efforts.

Even if you're relatively new to social media or a novice at Facebook, *have no fear*. By following the 5 simple steps below, virtually anyone can start using the power of the Xi System. And the more you use and engage with the system, the easier (and more fun) it becomes.

You could be just days away from helping someone new join your Xooma team. *So, let's get started!*

How to get access to your Xi System Tools:

Step 1: In your Xooma Member's Portal, go to your 'Profile' Tab under the 'My Account' section and verify that the email address shown there is valid and currently accessible to you. If not, please update your email address and click "Submit" at the bottom of the page.

Step 2: In your Xooma Member's Portal, click on 'Place Order' (also under the 'My Account' section) and place an order for Item #7200 - 'Xi System Subscription'.

Step 3: Click on 'Auto Ship' in your Xooma Member's Portal (again, under the 'My Account' section) and **add item #7200** to your Auto Ship. The Xi System requires it to be on auto ship because it is a monthly subscription service and without an active auto ship profile, the system tools will not function. **NOTE:** *Like with any Xooma products, your auto ship for the Xi System can be canceled at any time.*

Step 4: Look for the 'Xi System Welcome Email' (usually arrives within 10 minutes after your order) which will provide you with links to instructional videos on how to set up and use the Xi System Tools.

Step 5: Please take the time to watch the easy-to-follow training videos as they will help you get started. We also encourage you to tune in to our LIVE training opportunities for more information and education. And don't forget to share the benefits of these AI-driven business tools with your Xooma Team and future prospects.

As always, we're glad to offer additional help or direction as you start your journey with the Xi System! So, don't hesitate to contact us at Xooma's headquarters if you need us. We look forward to your successes with Xooma and Xooma Xi!

Your Xooma Corporate Team
